

Coast Fork Willamette Watershed Council
Education and Outreach Meeting

Agenda

Feb 1, 2007

5p Introductions, updates

5:15p Cottage Grove Restoration/Education Project

 --We have a volunteer from a local non-profit with expertise in implementing the types of programs we have been discussing. She will plan to attend and we will discuss possible grant funding that she is considering pursuing for funds for equipment, busing, and staff time as we have been discussing. We will try to send out some advance materials next week for your consideration.

 --Develop consensus on timeline, components, etc. Develop a to do list and identify partners that still need to be contacted.

6p SOLV Event 2007

 --We will discuss our level of involvement and possible projects. Last year we collaborated with the Cities of Cottage Grove, Creswell and the Corps of Engineers. Do we want to do that again?

 --As this will mostly be a Cottage Grove meeting, I will confer with folks on the Garden lake project team and Creswell contacts.

6:30p Conclude meeting
